INTERNATIONAL COTTON YARN TRADE

INDIA INFORMATION

Rising cotton prices to shrink operating margins of cotton yarn spinners

"Cotton yarn continues to see reduced exports owing to low demand and increased competition. Exports fell 40 per cent month-on-month (MoM) during July 2019, majorly due to an 80 per cent year-on-year (YoY) fall in demand from China. China has entered into second phase of free trade agreement with Pakistan on goods worth \$64 billion and its cotton yarn directly competes with India's."
